PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on experience building modern web applications using React.js, Node.js, Express.js, MongoDB, Laravel, Vue.js, and Tailwind CSS. Experienced in developing RESTful APIs, implementing authentication, and building responsive user interfaces through internships and real-world projects. Passionate about writing clean, maintainable code, leveraging AI-assisted development tools, and continuously learning new technologies. Eager to contribute and grow as a Junior MERN Developer.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), HTML5, CSS3

Frameworks: Laravel 12, Vue.js 3, React.js, Inertia.js, Node.js/Express.js

Frontend: Tailwind CSS, Bootstrap, Vite, Chart.js, WebSockets

Backend & APIs: RESTful APIs, JWT Auth, RBAC, Redis Caching, WebSockets

Databases: MySQL, PostgreSQL, MongoDB

DevTools: Git/GitHub, Composer, npm/npv, XAMPP

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Ronnie Ridge Technology

Dec 2025 – Apr 2026

Lahore, Pakistan

- Built and maintained full-stack web applications end-to-end using Laravel, Vue.js, React.js, Inertia.js, Tailwind CSS, and MySQL — delivering production-ready features at speed.
- Architected RESTful backend APIs and shipped frontend UI components for enterprise platforms: CMS, HRMS, and PRMS.
- Implemented RBAC, JWT authentication, Redis caching, and SEO optimizations across multi-role platforms.
- Collaborated in Agile environment — Git branching, pull requests, code reviews — ensuring clean, reviewable code.

Web Developer (Internship) | FentixTech

May 2026 – Jun 2026

Remote

- Developed and maintained responsive web pages and UI components using HTML5, CSS3, JavaScript, and React.js in a remote, task-based workflow.
- Implemented dynamic frontend features and integrated RESTful APIs, translating design mockups into pixel-perfect, cross-browser-compatible interfaces.
- Managed version control using Git and GitHub, following branching conventions and submitting pull requests for review on all assigned tasks.
- Completed structured task-based assignments covering component development, layout building, and bug fixing within defined sprint timelines.

Frontend Developer (Internship) | Codiveo

May 2024 – Aug 2024

Lahore, Pakistan

- Built responsive websites with HTML5, CSS3, JavaScript — transformed design mockups into cross-browser-compatible pages.
- Delivered frontend solutions for 3+ live client websites from initial setup through deployment.
- Used GitHub for version control, branching workflows, and pull requests under senior developer supervision.

PROJECTS

AirSense — React.js · Node.js/Express · WebSockets · Chart.js · Tailwind CSS

[github.com/hassaanrana07/AirSense-Real-Time-Air-Quality-Monitoring---Alert-System](#)

- Real-Time Air Quality Monitoring and Alert System with live AQI data (PM2.5, PM10, CO2) via WebSockets and Chart.js visualizations.

- Node.js/Express backend proxies and caches third-party API responses; React.js frontend with interactive Leaflet maps and 14-day forecasts.
- Features threshold-based browser/email alerts and city search with favorites — built end-to-end in structured phases.
- Architected modular component structure in React.js with custom hooks for real-time data polling, ensuring clean separation of concerns and scalable codebase.

Product Catalog Management System — React.js · Node.js · Express.js · MongoDB · JWT

github.com/hassaanrana07/Product-Catalog-Management-System

- Full-stack catalog system with CRUD operations, JWT auth, RBAC, image uploads, advanced filtering, and MongoDB aggregation queries.
- Admin dashboard with role-based access, protected routes, and fully responsive UI.
- Implemented secure file upload handling with server-side validation and optimized MongoDB indexes for fast product search and pagination across large datasets.

BrickBeam — Laravel 12 · Vue.js · Inertia.js · MySQL · Redis · Vite

github.com/hassaanrana07/BrickBeam-Enterprise-Construction-CMS

- Full-featured enterprise CMS with public site and admin panel — lead scoring, RBAC (5 roles), Analytics, Portfolio and Blog managers.
- Integrated Redis caching, SEO optimizations, and dark/light mode toggle.
- Engineered a lead scoring pipeline that automatically ranks and routes incoming client inquiries, reducing manual follow-up effort and improving conversion tracking for the sales team.

PRMS — Property Rental Management System — Laravel 12 · MySQL

github.com/hassaanrana07/Rent-Bro---Property-and-Rental-Management-System

- Full rental lifecycle system covering Property Management, Tenant Management, Payment Tracking, and Contract Management from a unified admin dashboard.
- Supports landlords, property managers, real estate agencies, and apartment managers with role-based access and clean UI.
- Designed a normalized relational schema in MySQL to handle complex multi-tenancy relationships between properties, units, tenants, and payment schedules with full audit trail support.

Personal Portfolio Website — React.js · Tailwind CSS · Vite

github.com/hassaanrana07/My-Personal-Portfolio-Website

- Fully responsive personal portfolio built with React.js and Tailwind CSS, showcasing projects, skills, and professional experience with a clean dark-theme UI.
- Designed in Stitch AI and implemented from scratch with a focus on pixel-perfect UI execution and fluid user experiences.
- Optimized for performance and SEO with Vite-powered builds, lazy-loaded components, and semantic HTML structure for fast load times across all devices.

EDUCATION

Bachelor of Science in Computer Science | Virtual University of Pakistan

Oct 2022 – Present

Lahore, Pakistan

CERTIFICATIONS

- Full-Stack Web Development — Certified
- Programming Essentials in C++
- MS Office Proficiency
